All-In-One Healthcare Document Signing and Management

All-In-One Healthcare Document Signing and Management

Improve operational efficiency with software that centralizes document management and simplifies the policy approval process. Automated multi-signature workflows, acknowledgment tracking, and comprehensive reporting give you the insights needed to make informed, compliance-driven decisions.

- Leverage automated, multi-person electronic signing to enhance efficiency and ensure compliance, all at a lower cost than traditional document management solutions.
- Maintain compliance and accreditation effortlessly in every step—from acknowledgment to audit—in one cohesive platform. This provides the visibility and control needed to meet regulatory standards consistently.
- Get new hires up to speed faster by sending multiple documents and fillable forms for acknowledgment. Integrate with your HRIS to fully automate onboarding, ensuring compliance from day one, all with a single click.
- Stay on top of changing requirements and standards with help from AI Policy Guardian. Embedded right within the workflow, AI flags impacted policies, suggests updates, and provides an explanation of why the policy is non-compliant. This eliminates hours of combing through regulations and making changes.

What MedTrainer Customers Are Saying:

50% of all healthcare documents require multiple signatures.*

G2 reviewers rank MedTrainer #1 in Healthcare Compliance Software.

On average, customers save **40 hours per week**.*

*According to a 2023 MedTrainer poll.

"We struggled for years managing our documents on paper across eight different sites. With everything digitized, I was able to make changes directly within the MedTrainer system. Sharing these changes is instantaneous, and everybody gets by-the-minute versions right in front of them."

– Joanne Umbrasas,

Director of Operations, Sault Tribe Health Division

About Medtrainer:

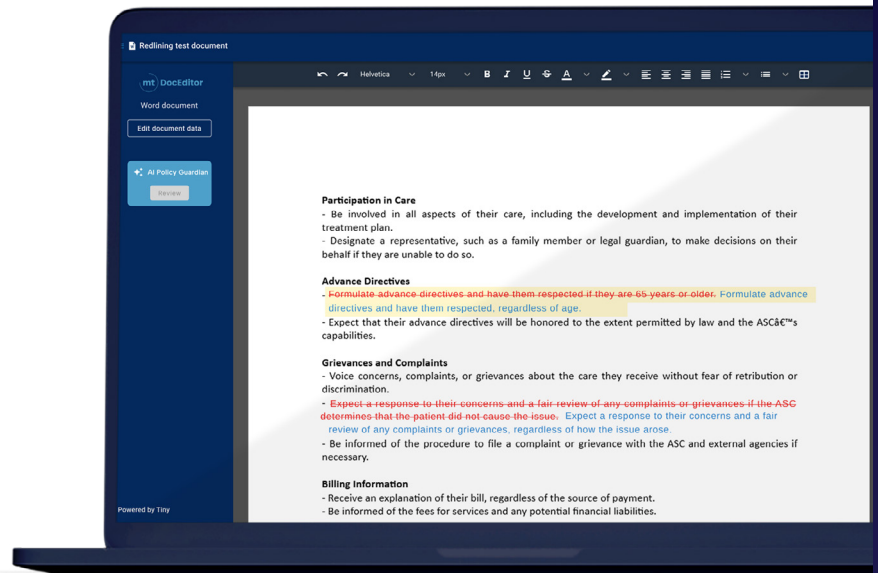

Over 300,000 healthcare professionals across 15,000 healthcare sites in North America rely on MedTrainer to get more done in less time.

Since 2013, MedTrainer has been helping busy healthcare professionals manage their credentialing, training, and compliance needs while maintaining the highest standards of safety for staff, patients, and the organization.

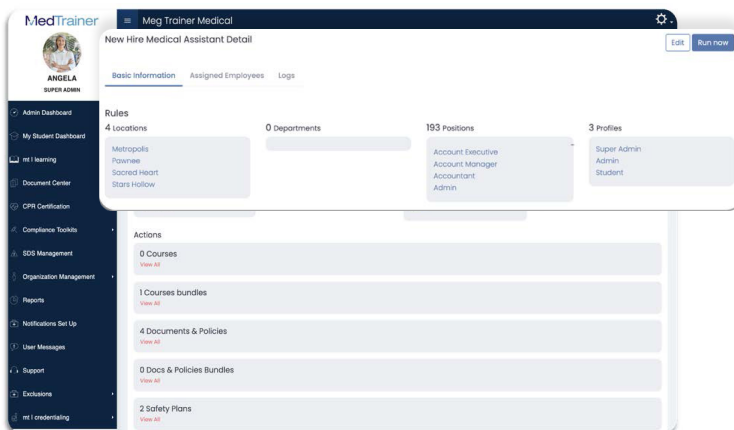

SIMPLIFY POLICY MANAGEMENT

- Ensure your team and surveyors have instant access to critical documents with advanced folder capabilities that keep everything organized and accessible in one view.
- Gain access to thousands of policy templates that are care setting specific and include all the policies required to meet CMS (Centers for Medicare and Medicaid) compliance, The Joint Commission standards, and most other accreditation requirements. It also features ready-to-use templates for plans of correction and policies aligned with CMS E-, F-, and K-Tag deficiencies.

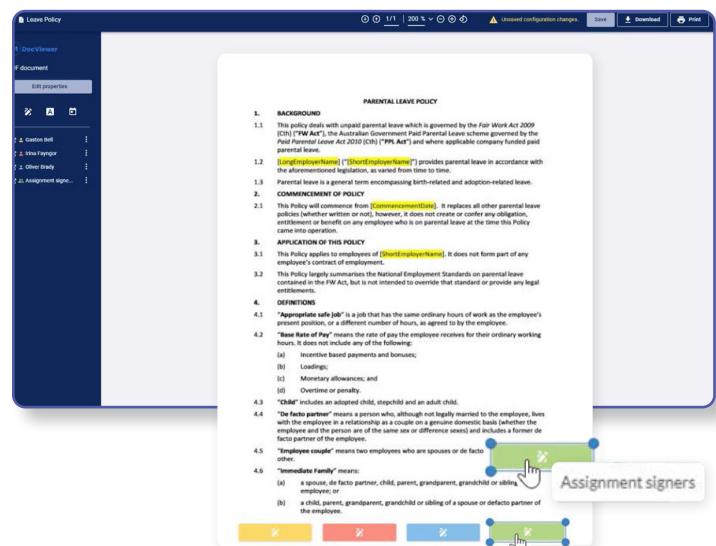

ONE-CLICK NEW HIRE ONBOARDING

- Save time by automating training and policy assignments for new hires, ensuring compliance is maintained across the board from day one.
- Simplify data collection and new hire information with fillable forms.
- Avoid duplicate data entry with HRIS integration, automatically assigning the correct documents and training to new hires, keeping your workforce compliant without extra administrative burden.

AUTOMATE THE SIGNATURE PROCESS

- Reduce bottlenecks with the ability to send multiple document types (.docx, .pdf, .png, .jpg) for signature.
- Healthcare-specific workflows with electronic signatures from internal and external parties reduce delays and help you secure all required approvals.
- Make it easier for employees and stakeholders to sign with an easy-to-use, mobile option.
